Bio for LSR Candidate

For Division 1 Director

Member of the Cowcatcher Division since 4/1/15 program manager in Division 1 for 2 years, served as Treasurer and on the Board of Directors for D1 for 3 years.

I have been involved in the NMRA for 8 years, attending meetings, participating in clinics at Division and Regional levels, entering model contests and participating in the AP program. My modeling skills have grown immensely. I recognize the NMRA played a key role in that improvement and I want to “pay it forward.”

As a member of the Cowcatcher Division leadership team over the past 5 years, using a number of different approaches and techniques has helped the division grow in membership and participation.

I can provide the leadership to build on what exists today and continue to enhance it.
